

REMARKS

Claims 32-80 are all the claims pending in the application. Applicants respectfully submit that the pending claims define patentable subject matter.

Claim Rejections - 35 USC § 112

Claims 32-60 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

By way of this amendment, Applicants have amended claim 32 to provide proper antecedent basis for the feature "the volatile liquid".

Regarding claim 34, Applicants have deleted the phrase "preferably in a range below 25°C."

Accordingly, it is respectfully submitted that the claims are now in condition for allowance and withdrawal of the present rejection is respectfully requested.

Allowable Subject Matter

Applicants thank the Examiner for indicating that claims 61-79 are allowed and that claims 32-60 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph.

Since Applicants have amended the claims to overcome the rejection under § 112, all of the pending claims should now be allowable.

Applicants have added new claim 80 which is patentable at least by virtue of its dependency on claim 32.

Conclusion

In view of the above, reconsideration and allowance of this application are now believed to be in order, and such actions are hereby solicited. If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.
